Headington Companies

WnR Inc. can solve many high energy cost problems by utilizing Energy Star Rate roofing and insulation products

- Energy star qualified roof products reflect more of the sun's rays
- More reflection lowers roof surface temperature.
- Decreases the amount of heat transferred into a building
- RMI Thane (silver), reflects heat off the roof, reducing the roof surface temperature
- According to the EPA, Energy Star products reduce peak cooling demand 10 to 15%
